GOVERNANCE, RISK AND COMPLIANCE

Australian Legal Compliance – Making it Work

Product Code: WALCOM

Contributing author: Graeme Howatson. Tax chapter by Simon Bowden, Senior Associate and Dr Niv Tadmor, Partner of Clayton Utz.

Former authors: Randal Dennings (Partner), Clayton Utz and Brian Sharpe.

Non-compliance can be very expensive. This practical publication will help you effectively address governance, risk management and compliance issues in your organisation. Even if a mistake does happen, having a robust compliance system could make a big difference when an organisation is in court striving for a due diligence defence (and trying to show it has taken reasonable precautions).

Ignorance of the law is no excuse. This manual examines the application of legal compliance to particular industries and legal areas. They deal with many laws, codes of practice, standards and practice guides that directors, managers and advisers should be aware of. This manual is designed to assist organisations and advisors to create and enforce successful compliance programs, particularly in light of the AS/ISO 19600:2015 compliance standard. It includes the full text of AS/ISO 19600:2015 and AS 3806-2006, and guides users on how to establish an effective compliance system, including structure and staffing. It sets out important aspects of embedding, maintaining and updating the system.

CORPORATE REPORTING SOLUTIONS

CORPORATE REPORTING SOLUTIONS

CCH Integrator

The world's most evolved tax compliance and reporting software.

CCH Integrator is a highly flexible cloud-based platform used by multinational corporations to manage, streamline and automate their corporate tax reporting and compliance obligations. Being cloud-based, CCH integrator is accessible in a secure manner by anyone with approved access rights and can be reviewed in a collaborative workspace, thereby improving transparency and turnaround times on compliance tasks.

The platform comprises three layers:

1. **Solutions** – this layer represents the final user configured compliance outputs/modules with the ability to streamline corporate reporting obligations across direct tax, indirect tax, transfer pricing and tax transparency.
2. **Design** – this layer provides a suite of front-end, user configurable 'tools'. No software coding knowledge, experience or training is required to use these tools. This is what makes CCH Integrator different from other technology platforms.
3. **Core** – this layer contains all of the underlying architecture developed by expert software engineers that manages data and business logic within the platform. Microsoft Internet Explorer delivers application functionality to end-users.

CCH Integrator is the only integrated solution available internationally and is used for managing data collection, analysis, tax reporting locally and globally.

Improved automation using new Design layer

Automate more routine tax compliance and reporting calculations through the migration of offline spreadsheet calculations and reports via the design layer's work papers, validations and reports features

New risk management controls

Use the workflow functionality, questionnaires and checklists to improve the control over tax compliance and reporting processes from data collection, preparation, review and filing

Flexibility to design your own Chart of Accounts and work papers

Easily flex the CCH Integrator platform to suit your firm's tax compliance and reporting requirements (e.g., using your own Corporate Chart of Accounts, work papers which align to specific industry needs)

Leverage for other compliance and reporting requirements

Use the one platform to manage taxes (e.g., direct, indirect tax, transfer pricing, financial reporting)

Automated currency conversation and aggregation

Ability to collect data in local functional currency and currency convert to reporting currency

Automated data loading, tax journal calculation, roll-forward, etc

Automatic journal creation for current year earnings/(loss) account on roll forward

CCH Fringe Benefits Tax Organiser (Australia only)

CCH Fringe Benefit Tax (FBT) Organiser is a flexible, easy-to-use, Windows®- based calculation engine helping you to efficiently manage your FBT reporting process. It's straightforward to install, quick to learn and easy to use.

Whether you're in finance, a tax specialist or in human resources, CCH FBT Organiser helps you:

- Free up planning time

CCH Parliament

Product Code: WPAL2

Keeping up with the latest political information is one of the most pressing needs of modern practices and businesses, whether it's Bills before Parliament, press releases or industry movements. Sometimes you just need the information straight away, without commentary or interpretation and without delay. And sometimes you also just need a question answered but you don't have the time or resources to answer it yourself.

Wolters Kluwer is pleased to bring you a range of parliament services which can give you the information you need, as you need it, including:

- Political Alerts
- Bill Trackers
- Political News
- Specialist Services
- Government Directories

The most immediate source of political information available, CCH Political Alert is an "early warning system" designed to immediately alert you to political developments that will impact on your organisation. The Alert is offered in a customised format, via email, that allows you to accurately select the information that best suits your needs on chosen topic areas.
